

LOGILINE

The SGL-standard stackable container of the Logiline range conforms to the requirements of the Swiss Logistics Association (Schweizerische Gesellschaft für Logistik, SGL). It is the ideal container for professionals: there are about 20 different sizes and multiple variants. The Logiline range is designed for intensive use. It is thick-walled; coupled with its extremely robust and dimensionally stable design this means it will withstand even the most demanding usage for years. Thanks to its ideal space utilisation, high level of sound absorption and its high load-bearing capacity, it is very popular with major distributors, such as in the engineering sector, the distribution of goods, mail logistics, e-commerce or the food industry.

Available sizes

Basic dimensions (L×W in mm)	External height (mm)						
200×150	100	145					
300×200	53	101	145				
400×300	53	101	145	212	278	320	
600×400	56	101	145	212	278	320	412

(depending on the base design, external height +3/+6 mm)
