

# LOGILINE

## Dividers LL

Logiline dividers enable the Logiline containers to be subdivided flexibly. Thanks to the snap-in system, the dividers are held together firmly, even during cleaning or removal. The rounded edges and guide grooves make handling easy and comfortable.

### Applications

Logiline dividers allow containers to be subdivided flexibly and ensure orderliness and provide protection when used.

Suitable for Logiline 400×300 mm and 600×400 mm stackable containers.

### Special types

All non-stock items are marked thus and available on request only.
