

LOGILINE

Foam cut-outs LL

Logiline foam cut-outs in the lid, on the walls or on the base of the container prevent slipping or damage to the stored products. Different thicknesses and customised sizes (available on request) guarantee precise tailoring to your specific needs.

Applications

Logiline foam cut-outs protect and organise measuring instruments, tools, sensitive surfaces or fragile goods.

Available sizes

Basic dimensions (L×W in mm)

400×300

600×400

Suitable for Logiline stackable containers.

Tip

If you wish, the foam can also be custom cut for other product ranges such as Newbox.

Special types

All non-stock items are marked thus and available on request only.
