

# STALA

## Stala Box ST

The Stala Box is made of scratch-resistant, transparent polystyrene and is available in six sizes. It forms the basis of the Stala Set and can easily be tilted forwards or removed completely.

### Tip

We recommend that you also take a look at the following section Stala rack systems, which leaves almost nothing to be desired where optimal space utilisation is concerned.

### Special types

All non-stock items are marked thus and available on request only.

ST ET label

ST SC scanner plate

ST TRP safety bracked  
(prevents the boxes from opening)
