BLACKLINE

The conductive SGL-standard stackable container of the Blackline range conforms to the requirements of the Swiss Logistics Association (Schweizerische Gesellschaft fur Logistik, SGL). It is extremely well-suited for the consignment, storage and protection of electronic components during manual and mechanical handling. There are about 20 different sizes and a multitude of variants and the Blackline range is designed for industrial use. The thick-walled and extremely robust and dimensionally stable design will protect your parts for years.

Available sizes

Basic dimensions (L×W in mm)	**External height** (mm)						
200×150	100	145					
300×200	53	101	145				
400×300	53	101	145	212	278	320	
600×400	56	101	145	212	278	320	412

(depending on the base design, external height +3/+6 mm)

Special types

All non-stock items are marked thus and available on request only.

05 PP

+80°C
-20°C

ESD version

Every Blackline container carries the ESD logo and has a surface resistance of ≤10^4 Ohm.

Tip

The Blackline range offers comprehensive systems for the appropriate handling of printed circuit boards. Find out more in the following sections:

1. PCB Holders
2. Printorama
3. Rack-System 100
4. Rack-System 180
